

# GYSFLASH 15.24 XTREM

## THE RUGGED CHARGER FOR THE FIELD

### RESISTS EXTREME CONDITIONS

- Extremely robust, shock and vibration resistant (standards: **military VG96960**, IEC600682-6).
- Water and dust tight (**IP65**).
- **Ultra safe**: protected against short circuits, reverse polarity, overloads and equipped with an anti-spark system.

### REINFORCED CONNECTORS

- Highly resistant **military connector**, safe and capable of withstanding strong currents:
  - Double insulated cable
  - Robust and secure 2-pin connection

### HIGH-PERFORMANCE TECHNOLOGY

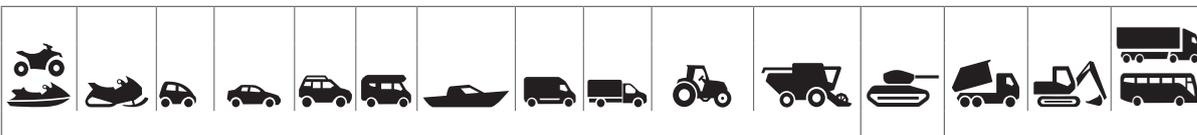

- Inverter charger for **12 V and 24 V lead batteries** (liquid, gel, AGM, EFB...).
- **High efficiency**, duty cycle of 15 A at 100% (40°C).
- **3 charge levels**: 5 A, 10 A, 15 A for both 12 V and 24 V.

### 100% AUTOMATIC CHARGE

- Charge curve 6 steps **unattended**.
- **Recovers** all batteries from 1 V.
- **Automatic restart** in case of power failure.

### SUPPLY MODE

- Transforms the charger into a stabilised power supply delivering up to 15 A.

10 > 240 Ah
